► **Applications**

- C-stores
- Drug stores
- Gift-card retailers
- Prepaid locations
- Restaurants
- Specialty markets

**Your Customers Want Convenience?
Simply Hand It Over.**

Compact, comfortable and convenient: the S9 PIN-based payment transaction devices from Hypercom are simple to use and cost-effective, too.

Look at it from your customers point of view. The S9's hand-fit and easy features maximize efficiency and responsiveness. It puts big number keys, colored OK and CANCEL keys, and a bright, backlit display right in the palm of their hands.

Now see the S9 from your side. It meets every security and network integration standard – it's PCI-PED approved and triple-DES-capable. You get a choice of DUKPT or 12 master / session keys in one secure package. Three optional configurations let you move up to an integrated chip card reader, magnetic stripe card or combined chip / magnetic stripe card service. And its complete software makes for easy integration with your existing POS terminal or ECR system. Providing a secure solution for the most recent PCI mandates.

Hypercom's S9 line: it's the total transaction solution with benefits that you just have to touch to believe.

Handy for you and your customers

Easy-to-read keycaps

Two-line, backlit LCD

CUSTOMER COMFORTABILITY. RETAIL UTILITY.

- **Key management:** DUKPT or 12 master / session keys

FOOTPRINT

- **Dimensions:** 3.54in x 6.73in x 2.09in / 9.0cm x 17.1cm x 5.3cm

WEIGHT

- 0.5 – 0.6 lbs/0.22 – 0.27 kg (depending on the configuration)

ENVIRONMENT

- **Temperature:** 0-45°C/32-115°F
- **Humidity:** Max 85%, non-condensing
- **ESD:** 12,000 volts

RELIABILITY

- 100,000 hours (MTBF calculated)

CONFIGURATIONS

- PIN pad only (S9)
- PIN pad with magnetic stripe reader (S9C)
- PIN pad with chip card reader (S9S)
- PIN pad with magnetic stripe and chip card readers (S9SC)

The Form and the Fit for Your Purpose

- ▶ Fits the hand thanks to modern, ergonomic design, for fast, easy transactions
- ▶ Puts oversized, colored OK and CANCEL keys where customers can see and use them quickly and conveniently
- ▶ Offers ADA-compliant PIN entry with 16-button keyboard configuration
- ▶ Makes sales information easy to see with bright, backlit two-line display

Security Pays Off at the Point of Sale

- ▶ Protects valuable cardholder information with cryptographic modules, fast Data Encryption Standard (DES) and Triple DES, and master/session keys
- ▶ Meets stringent security requirements, with epoxy-encased processor and RAM
- ▶ Provides Derived Unique Key Per Transaction (DUKPT) key management and Triple DUKPT support
- ▶ Features PCI PED and EMV approvals

Maximum Flexibility Maximizes Return on Investment

- ▶ Works easily within your infrastructure as a handover or countertop device
- ▶ Enables rapid integration into existing POS terminal or ECR systems
- ▶ Makes migration smooth and easy with additional optional configurations: S9S model features integrated chip card reader; S9C with magnetic stripe reader; S9SC model offers an integrated chip/magnetic stripe reader
- ▶ Uses Hypercom "plug-and-play" software to ensure backward compatibility with Hypercom terminals
